

Wir müssen wissen, Wir werden wissen.

— — David Hilbert

Zwei Dinge ehrfüllen das Gemüt mit immer neuer und zunehmender Bewunderung und Erfurcht, je oeffter und anhaltender sich das Nachdenken damit beschaeftigt:
Der bestirnte Himmel über mir und das moralische Gesetz in mir.

— — Immanuel Kant

I've always believed in numbers. In the equations and logics that lead to reason. But after a lifetime of such pursuits, I ask, what truly is logic? Who decides reason? My quest has taken me through the physical, the metaphysical, the delusional, and back. And I have made the most important discovery of my career. The most important discovery of my life. It is only in the mysterious equations of love, that any logical reasons can be found. I'm only here tonight because of you. You are the reason I am. You are all my reasons.
